

Sofies is a consulting firm offering sustainability services to corporate, public and international organisations. Head-quartered in Geneva, Switzerland, the company has registered offices in Zurich (CH), Weybridge (UK) and Bangalore (IN). Using an integrative approach based on industrial ecology and circular economy, Sofies successfully develops innovative and tailored solutions to help our clients balance competing economic, social and environmental goals.

To strengthen our team at our Zurich office we are looking - from September 2020 or upon agreement - for a

Consultant (80-100%)

in the field of waste management and circular economy

Your tasks

- Collaboration in national and international projects related to waste management, with the possibility of international travel on project assignments;
- Collaboration in national and international research and innovation programs;
- Stakeholder assessment, material flow models, economic models, and policy processes in the field of waste management, with a focus on electronic and plastic waste streams.

Your competences

- Completed university education in fields such as Environmental Engineering or Environmental Sciences, with specializations in the mentioned work areas or an equivalent education/specialization;
- Profound expertise on waste management and circular economy;
- At least 3 years of experience in the above-mentioned work areas and tasks;
- Critical thinking, intellectual curiosity and problem-solving abilities;
- Joy, confidence and interest in working with people;
- Excellent communication skills in German and English (written and oral) and possibly good skills in French.

We offer

- Varied tasks and innovative projects;
- Access to an international expert network;
- A large scope for independent working and your professional development;
- A young and dynamic working environment;
- A respectful corporate culture and flexible working arrangements.
